

Name	Gemma Louise Stonier
Medical School	Barts & The London School of Medicine
Email (optional)	

Country visited India

What problems did you encounter? (120 words max)

The roads are very busy and most do not have pavements which makes it very difficult and unsafe to walk from place to place, even if only a short distance. This meant relying on local transport services which were difficult to navigate but we found pre-booked taxi services, such as Ola or Uber, most efficient.
